**Note:**

**Gross Production Value** refers to the total value or gross output of mineral extracted during the reporting period as defined in Chapter I, Section 5(ar) of the DAO 2010-21 of the Philippine Mining Act of 1995 (under the term "Gross Output")

**Gross Value Added (GVA)** - measures the contribution of a particular sector to the country's GDP; computed by subtracting the cost of production inputs from the gross output of a particular industry. Total GVA does not include crude oil and coal.
